

## **Greatest Gift (Magic Spell)**

Can you see? Do you hear?  
Can you feel - and taste things?

Can you scent? And do you think,  
This is all - for granted?

Did you make it (make it..., make it...) out of your bed?  
And did you have cereal - for breakfast?

### **[CHORUS]**

**Have you been cold or did you starve at night?  
Do you realize - you're a winner?**

We all have pants, and shirts and shoes,  
and caps and gloves and coats - for winter.

Then we think, that's not enough,  
'cause fashion magazines demand to think so

Oh, can't you see, we all are blessed,  
there's people in the world who fight for living.

### **[CHORUS]**

**This life you've been given is the greatest gift of all  
never let anybody waste it!**

### **[BRIDGE]**

Can you see?      Can you see?      Can you see?      Can you see?  
Open your eyes    Open your eyes    Open your eyes    Open your  
eyes - oh can't you see?

Big data is the currency, in this 21<sup>st</sup> century,  
and you agree to voluntarily feed them.

Be aware of what you do, there's no one else to blame but you,  
that's your little tribute to the future.

So all you people in the world, try to live and not get hurt,  
try to stay in tune with mother nature, 'cause

**[CHORUS]**

**This life you've been given is the greatest gift of all  
never let anybody waste it!**
