

What you see is what you get
I know they told you so
What is a dream and what is real?
Tell me, tell me, tell me where do we go?

You dream at night from distant places?
How do you know when you're awake?
Nobody knows how this dream will end at last
There's gotta be something else!

Love it, embrace it
Feel it, and taste it

I know you can because you let it go and it will come to you and let you know!

Instrumental

Have you ever heard the voice inside of you?
It's quiet - it's a whisper...
Have you ever faced your inner view?
Now close your eyes and take a look inside

Open your mind and trust your feelings
It's easy - once you begin
Follow your heart and let it guide you through the maze
There's nothing to lose and so much to win

Love it, embrace it
You can feel it, and taste it

I know you can because you let it go and it will come to you and let you know

Instrumental/Solo

Finally, we come together
Finally, we will find out
Ooohh, what happens with the inner world, ...and
Ooohh, what is it all about?

Love is the missing part - ...and
Love is the key
Love is the inner voice - so close your eyes and get to see

Maybe we can love and taste it,
We can feel it and embrace it...
We can make this world a better place...

...go ahead and do it now!
